

The IDEA BOX: We are committed to continuous and accelerated improvement of our learning environment. Thoughtful ideas are valued, respected and encouraged. The purpose of the idea box is to generate constructive ideas/suggestions/brainstorms from you. You are a key component of our learning system and our system needs your constructive input and feedback.

The IDEA TEAM: Four students and four faculty/administrators have volunteered to review your ideas every month and will report back to the individual student (and to others as needed) their collective review and possible next steps.

HOW IT WORKS: Please use an IDEA BOX FORM to expedite the team's review. The IDEA TEAM will meet monthly to review the ideas and make recommendations and will report back to the students(s) on their review and possible next steps.

In addition to existing mechanisms, the IDEA BOX provides another forum for us to dialog and learn from one other about how to make the learning environment the best it can be.

1. What is the learning opportunity or need you see?

2. What is your recommendation?

Optional; please note that we will be able to provide you with a direct response and invite you to discuss your concern with us only if you provide your name!
